## RING SPINNING

We have the state of the art Ring Spinning Frames having 12,000 Spindles with a range of machines from Trutzschler, Reiter and Zinser Machines. We have capacity to spin 200 tons of Combed or Carded Yarn per day.

## CIRCULAR KNITTING

Our Circular knitting division has machines made by Mayer&Cie and Pailung in a wide range of diameters and gauges.

We have the capability to knit most types and patterns of fabrics as needed by our customers. We can knit both 100% Cotton and blended yarns. They are also equipped with attachments to knit Lycra blends.

Our knitting facilities have the capacity to produce 450 tons of fabric per month.

# polo shirts, t-shirts, sweatshirts our forte

## COLLAR / FLAT KNITTING

Our Flat Knitting Machines made by Shima Seiki are capable of producing different types of knitted collar and designer fabrics in different patterns.

## DYEING

Coloring of DG's yarn and fabrics is done in Soft Flow Dyeing made by FONGS or Closed Winch Dyeing machines as needed with a capacity for 250 tons of fabric per month. The dyeing facility also has the capacity to carry out a range of special processes that improve quality of the final product. A full-fledged lab support our processing.

We have 100% Water Reclamation & Reusing facility to control pollution.

## FINISHING

Our finishing plants are equipped with Dryer & Squeezer. We have a brushing machine from Taiwan. DG's fabrics are compacted using Tube-Tex, USA machines to ensure dimensional stability and maintain shrinkage levels as required and give the best hand feel and color fastness.

## EMBROIDERY

DG is equipped to carry out intricate embroidery designs and logos. We use five high-speed multi-head, multi-color embroidery Tajima Machines capable of doing monograms, appliqué embroidery and overall embroidery. We also have Tackle Twill Appliqué cutting Machine for appliqué work.

We also have extensive arrangement for performing handmade embroidery. The Indian workforce is renowned for this fine skill.

## Deivanai Group

### ABOUT US

Deivanai Group is a private family owned enterprise based in India. The group companies have vertically integrated manufacturing facilities from Ring Spinning - Knitting - Dyeing & Finishing - Printing - Embroidery - Cutting & Sewing. We export quality knitted garments to a broad customer base in USA and Europe. We also manufacture for name brands in India. The manufacturing facilities are based in and around Tirupur, India. The area is prominent in the textile world for spinning, knitting, weaving & textile machinery manufacturing. To better serve our customers we have an overseas office based in Yardley near Philadelphia, USA.

### PRODUCTS

We can manufacture a wide range of knitted garments for men, women and children. Polo Shirts, Mercerized Golf Shirts, T-shirts and Sweatshirts are our Forte.

We offer various styles including solids, stripes, jacquard, prints, embroidery and appliqué work as needed by the customer. We offer single and double mercerized fabrics if required.

We provide 100% Cotton, Poly/Cotton, Cotton/Lycra blends or other specially engineered fibers as needed. Only fully combed yarn is used in our knits.

## Technology at work for you

### PRINTING

DG specializes in different types of printing. For this we have the services of multi-color spider-printing machines, special chest printing machines, heat transfer printing machines and manual tables for special designs.

These machines can print plastisol flock, rubber, foams, transfer prints, roll prints etc. with a great finish. Printed garments are cured to make them odor free and can be silicone softened by washing.

### CUTTING & SEWING

DG's Garment division consists of both regular and special purpose stitching machines. We have an array of flatlock, overlock and single needle machines made by Pegasus, Siruba and Juki. In addition, we have machines for button hole, button fixing, elastic attachment, placket and fusing machines. Cutting is done by lay cutting machines.
